

BCaBA Examination Pass Rates for Verified Course Sequences

2016-2020

The data show the annual number of first-time examination candidates from ABAI Verified Course Sequences and overall pass rates for the course sequences. Candidates are included in a course sequence's pass-rate data if they used coursework entirely from that sequence to meet certification eligibility requirements. Data are not reported for (a) course sequences in their first four years of operation and (b) course sequences with fewer than six first-time candidates in a given year. Combined data are reported for course sequences with too few first-time candidates in each year, but six or more in a two-year period.
