

BCBA Examination Pass Rates for University Training Programs (2022)

The data in this report show the number of first-time BCBA examination candidates from, and overall pass rates for, Association for Behavior Analysis International (ABAI) Accredited Degree Programs and Verified Course Sequences. BCBA candidates are included in the pass-rate data if they received a degree from the accredited program or if they used coursework entirely from the course sequence to meet certification eligibility requirements. Data are not reported for training programs with fewer than six first-time candidates in 2022. Institution name, department name, program name, and modality fields appear as they are listed in ABAI's database records. *Note:* For a full list of universities that offer qualifying BCBA coursework, visit the [Association for Behavior Analysis International](#) or the [Association for Professional Behavior Analysts](#) websites.
