

BCBA Examination Pass Rates for Verified Course Sequences

2014-2018

The following data show the annual number of first-time candidates from each Verified Course Sequence and their pass rates. Candidates are included in a course sequence's pass-rate data if they used coursework entirely from that sequence to meet the eligibility requirements for BCBA certification. Data are not reported for (a) course sequences in their first 4 years of operation and (b) course sequences with fewer than 6 first-time candidates in a given year. Combined data are reported for course sequences with too few first-time candidates in each year, but 6 or more in a 2-year period.

Summary Statistics
