RBT® Renewal Competency Assessment Packet: Requirements

Overview

All RBT certificants must demonstrate that they can competently perform the tasks on the Renewal Competency Assessment as part of the annual requirements to maintain the RBT certification. The Renewal Competency Assessment is an important maintenance requirement because it requires an RBT to demonstrate their ongoing proficiency in performing critical behavior technician skills. This demonstration is especially valuable because of the integral, hands-on activities an RBT performs on the service-delivery team.

Qualified Assessor(s)

Responsible assessor: A BACB certificant (BCaBA, BCBA, or BCBA-D) who has completed the 8-hour supervision training is responsible for overseeing the Competency Assessment. The responsible assessor must:

- Ensure that the assessment is conducted in accordance with these requirements;
- Sign the Renewal Competency Assessment;
- Maintain records of all assessments conducted; and
- Ensure that the assessment meets quality standards, even when assistant assessor(s) are involved in conducting the assessment.

Assistant assessor(s): The responsible assessor may delegate some or all of the assessment to an assistant assessor who has demonstrated, through direct observation, proficiency in the material being delivered. This individual does not need to be certified by the BACB, however, the responsible assessor is professionally and ethically accountable for all of the assistant assessor's activities. The responsible assessor may utilize multiple assistant assessors for a single Competency Assessment.

The responsible assessor and assistant assessor(s) (hereafter referred to as "assessor") may not be related to, subordinate to, or employed by the RBT during the assessment. Employment does not include compensation paid to the assessor by the RBT for assessment services.

Timing

The Renewal Competency Assessment cannot be completed more than 45 days before the RBT's certification expiration date.

Structure

The Renewal Competency Assessment:

- May be conducted over one or more sessions.
- May be conducted in person, live via the internet, or through observations of recorded videos created specifically for the purpose of the assessment.

Administration

The assessor will provide an opportunity for the RBT to perform each task and evaluate whether the task was performed in a competent manner. Based on the instructions in each section of the assessment, one of three assessment types might be used to evaluate each task:

- **With a client:** the assessor observes the RBT performing the task with a client.
- **Role-play:** the assessor observes the RBT performing the task in a situation similar to what might occur with a client (i.e., with another person acting in the role of the client). This method may be used when circumstances do not permit conducting the evaluation with a client.
- **Interview:** the assessor must conduct a live interview (in person or via the Internet) during which the applicant must accurately describe or discuss the relevant concept and provide examples and nonexamples where applicable. Initial and follow-up interview questions may be tailored to the applicant's current clients and/or workplace parameters.

If the RBT does not demonstrate competence in a task, the assessor may provide corrective feedback and assess the task with the RBT on another day. This process must be repeated until competence is demonstrated. Corrective feedback may not be delivered on the final assessment of a task.

Documentation

After the assessor has observed a task being performed competently, the assessor will (a) initial the box next to the task and (b) if applicable, mark the assessment type used. After all of the tasks have been competently performed, the responsible assessor will sign and date the final attestation.

RBTs will be required to submit a completed Renewal Competency Assessment with their annual certification renewal applications.

Document Retention: The responsible assessor must maintain documentation of each assessment (e.g., completed Competency Assessments, assessors who conducted portions of the assessment) for a minimum of 7 years.

Modification to the Renewal Competency Assessment: Responsible assessors may develop their own version of the Renewal Competency Assessment. The form must include all of the following elements:

- All of the tasks, listed individually, with a place for initials
- The assessment type(s) specified for each task
- A comment field for specific information about the assessment
- A list of the assistant assessors
- A signed attestation, including:
    1) Attestation text:

        By signing below I attest that the tasks initialed above have been successfully demonstrated by the RBT.

    2) The relationship of the responsible assessor to the RBT (i.e., employer, contracted)
    3) The responsible assessor's name, certification type, certification number, signature, and date signed

RBT® Renewal Competency Assessment: Responsible Assessor Checklist

Instructions: The responsible assessor should complete this self-review checklist prior to overseeing a Competency Assessment.

☐ I am actively certified as a BCBA, BCBA-D, BCaBA.

☐ I am not related to, subordinate to, or employed by the RBT being assessed.

☐ I have completed the 8-hour supervision training.

☐ I have read and understand the Competency Assessment requirements (see pages 1-2).

☐ I have identified suitable clients for the tasks identified in the Competency Assessment (e.g., client tolerates new therapists and new tasks, client has scheduling availability).

☐ I have a system to track and maintain records of completed Competency Assessments (e.g. dates delivered, names of assistant assessors, dates completed; see the Sample RBT Assessor Log for an example of how to track assessment information).

Oversight and Evaluation of Assistant Assessors

☐ I have criteria to evaluate the readiness of the assistant assessors and a process to assess their skills before they complete portions of a Competency Assessment.

☐ I have materials for the assistant assessors who are conducting portions of the assessment (e.g. guided instructions, evaluation criteria, role-play scenarios, videos) to ensure every assessment is conducted in a high-quality manner.

☐ I have identified procedural integrity and interobserver agreement metrics and implemented systems to ensure there is consistency within and across assessments (see the RBT Assessor Performance Evaluation tracker for an example of tracking assistant assessor performance)

☐ I have a process to ensure that the assistant assessors are not related to, subordinate to, or employed by the RBTs being assessed.
